Summary of This Update

This report cross-references two source documents against the live site: 'NEPED PDF.pdf' (official Home/About Us copy, Aims & Objectives, Organisational Structure, Team Leaders, POU roster, and the Projects tables) and 'NEPED - its history PDF.pdf' (30-year phase-by-phase narrative, NEPED-SCEN objectives, success stories, and the livestock/Foddorizer programme).

WHAT CHANGED IN THIS PASS

1) Left navbar 'NEPED' dropdown was trimmed to NEPED-only links (removed the duplicate NEPeD Energy Division / Impact links, which already live in the right NEPeD dropdown). 2) Added a new 'About the NEPED Society' section to the /neped-economic page carrying the Society's origin, its founding-charter Purpose statement, and its governance culture (POU/Team Leader/Project Steering Committee/Chief Secretary) verbatim from the source PDFs -- none of this narrative existed on the site before. 3) Expanded the NEPED-SCEN project's official objectives from 3 to the full 6-point list specified in the history PDF.

Everything else below was already present on the site prior to this update; it is listed for completeness so this document is a full source-to-site map, not just a changelog.

Source 1: "NEPED PDF.pdf"

1.1. Home blurb -- formed 1994, autonomous registered society, climate-change resilience aim

Source: NEPED PDF.pdf, p.1 ("Home:")

Site Location: src/pages/NepedEconomicPage.tsx, new "About the NEPED Society" section (intro paragraph)

Live Route: </neped-economic>

STATUS: ADDED THIS UPDATE

1.2. "About Us" -- 1995 setup, first foreign-funded ICEF project, Phase-I renaming to NEPED

Source: NEPED PDF.pdf, p.1 ("About Us:")

Site Location: src/pages/NepedEconomicPage.tsx line 111 (hero bar) + new About section intro paragraph

Live Route: </neped-economic>

STATUS: ADDED THIS UPDATE

The Phase-I renaming line was already on the hero bar; the 'first foreign-aided project' framing is new.

1.3. Registration numbers with exact dates (H/RS-4238; HOME/SRC-6751)

Source: NEPED PDF.pdf, p.1

Site Location: src/pages/NepedEconomicPage.tsx line 105

Live Route: </neped-economic>

STATUS: ALREADY LIVE

1.4. 7-Point Aims & Objectives of NEPED

Financial incomes / self-employment / entrepreneur capacity / market linkages / thrift savings / mindset shift / biodiversity conservation.

Source: NEPED PDF.pdf, p.2

Site Location: src/pages/NepedEconomicPage.tsx lines 352-386 (Section 5, "Core Aims & Objectives of NEPED")

Live Route: </neped-economic#aims>

Live Route: </neped-economic#team>

STATUS: ALREADY LIVE

1.8. "Projects Implemented under NEPED" Table (12 Rows)

NEPED I, II, III, SCEN, Community Piggery, 4x Handicraft/Textiles projects, NTFP Value Addition, and NEPED-IV FBMP (KfW).

Source: NEPED PDF.pdf, p.5-6

Site Location: src/data/nepedProjectsData.ts, project ids 1,2,3,4,5,6,7,8,9,10,12

Live Route: </neped-economic#projects>

STATUS: ALREADY LIVE

1.9. NAFCC -- National Adaptation Fund for Climate Change

Project period 2018-26, funded by the Ministry of Agriculture, Govt. of India.

Source: NEPED PDF.pdf, p.6 (row of the same table)

Site Location: content/_archived/project-11-naffc-climate-change-adaptation.md -- moved OUT of content/projects/, so it no longer renders on the live Projects Archive

Live Route: </neped-economic#projects>

STATUS: STILL MISSING

This project is explicitly listed under NEPED (not NEPeD) in the source table. It currently sits in _archived rather than content/projects/, so it will not appear on the site until it is restored or a deliberate decision is confirmed to keep it out.

1.10. "Projects Implemented under NEPeD" Table (Confirmed Out of NEPED Scope)

Hydrogers, hydrogen development, and the eco-tourism workshop.

Source: NEPED PDF.pdf, p.7

Site Location: Not applicable to NEPED pages -- eco-tourism workshop correctly lives in content/_archived/project-13-state-level-workshop-ecotourism-development.md, matching the PDF's NEPeD classification

STATUS: ALREADY LIVE

Listed here only to confirm it was correctly excluded from the NEPED-only left nav dropdown fixed in this session.

Source 2: "NEPED - its history PDF.pdf"

2.1. NEPED Society Formation & Governance Culture

CIDA/ICEF origin, POU as the Society's hub, Project Steering Committee headed by the Chief Secretary, and its informal, innovation-friendly work culture.

Source: History PDF, p.1 ("NEPED Society")

Site Location: src/pages/NepedEconomicPage.tsx, new "About the NEPED Society" section, "Governance Culture & Reach" card

Live Route: /neped-economic

STATUS: ADDED THIS UPDATE

2.2. Purpose of the Society statement (verbatim charter language)

STATUS: ALREADY LIVE

2.7. NEPED-SCEN Full 6-Point Official Objectives

Biodiversity registers + legal protection, advocate new CCAs, document IEK, identify technical/financial CCA needs, provide technical support & market linkages, and Blyth's Tragopan as flagship species.

Source: History PDF, p.2

Site Location: src/data/nepedProjectsData.ts project id 4, keyObjectives array -- expanded from 3 paraphrased items to the full official 6-point list

Live Route: </neped-economic/project/neped-scen-biodiversity-traditional-knowledge>

STATUS: ADDED THIS UPDATE

Objectives 2 (advocacy for new CCAs), 4 (identifying technical/financial requirements) and 5 (providing technical support & market linkages) were missing before this update.

2.8. Success-Stories Paragraph

25 years of credibility, birth of the NEPeD energy team, 108 hydrogers installed statewide, and the "knowledge bank" framing for researchers, government departments, and NGOs.

Source: History PDF, p.2

Site Location: src/pages/NepedEconomicPage.tsx lines 623 & 632 (108 hydrogers, birth of NEPeD) + new About section "knowledge bank" sentence

Live Route: </neped-economic>

STATUS: ADDED THIS UPDATE

The 3KW generator-capacity spec quoted alongside the 108-hydroger figure in the source PDF is still not stated anywhere on the site (it belongs on the /technology page, which documents hydroger hardware specs -- out of scope for the NEPED-only pages covered in this update).

2.9. Shukla Commission Report quote (Government of India, March 1997) -- verbatim

Source: History PDF, p.3

Open Items For Your Decision

- * NAFCC project archived: Currently sits in content/_archived/ rather than content/projects/, so it does not render on the live Projects Archive even though the source PDF lists it as an active NEPED project. Restore it, or confirm it should stay excluded (e.g. if it's considered folded into NEPED-IV FBMP).
- * 3KW hydroger capacity spec: Quoted in the history PDF alongside the '108 hydrogers' figure, but not stated anywhere on the site. It's a NEPeD/Technology-page fact rather than NEPED, so it was left out of this NEPED-focused pass.
- * AboutPage.tsx naming: The page titled "About NEPED -- History, Vision & Leadership" (route /about) is actually written entirely about NEPeD (formed 2007, energy team, hydro engineers memoriam). Its content doesn't overlap with either source PDF, which are both NEPED-Society documents -- flagging in case the page name/scope needs correcting separately.
- * Unsourced statistics on existing project cards: Several NEPED project detail entries already on the site (e.g. handicraft exhibition sales figures, artisan counts, spring counts on the archived NAFCC page) include specific numbers that do not appear in either source PDF. Not part of this update's scope, but worth a verification pass given this is a government-linked proofreading document.
